DETAILED ACTION

Election/Restrictions

Newly submitted claims 25-34 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the newly submitted claims are drawn to a different invention than the examined claims. The newly submitted claims are directed to a circuit layer and an insulation layer covering part of the circuit layer, wherein the circuit layer comprises a pad. While the examined claims are directed to a package and does not contain the limitations of the newly submitted claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 25-34 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

The reply filed on 6/23/05 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): there are no remaining claims in this application. As noted above, the only claims remaining in the application are directed to an invention that is different from the one originally examined. Accordingly, these claims have been withdrawn. This leaves no currently pending claims. See 37 CFR

Art Unit: 2891

1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
